

COFFEE MILL

with conical burr grinder & integrated scales

Professional grinding for a perfect taste

A coffee mill that meets highest demands, delivering perfect grinding results constantly. The effective, stainless steel conical burr grinder grants the most flavour-preserving way of grinding coffee and espresso beans. With the integrated scales it is possible to grind the beans into fine powder accurately to the gram. There are 39 levels to set the coarseness – from fine for espresso, medium for drip coffee and coarse for French press coffee. Especially convenient is the removable holder for porta-filter, which allows to grind directly into a porta filter of an espresso machine. This premium coffee mill offers much professionalism for the demanding coffee and espresso lovers!

with precision scales

Technical data:

Type: EKM 500

230 V~ 160 W • black/stainless steel

- integrated precision scales with tare function
- individual and flexible use:
 - weight controlled grinding up to 100 g
 - portion-controlled dosage up to 12 portions
 - time-controlled grinding up to 60 seconds
 - manual function for grinding directly into porta-filter
- aroma-friendly stainless steel conical burr grinder with anti-block system
- individual coarseness setting in 39 levels
- LED display, 5 function keys
- extra-large beans tank (400 g) with removable flavour cover
- removable powder container (up to 200 g)
- removable holder for porta-filter Ø 60 mm
- modular grinder for easy cleaning
- dimensions (w x d x h): 13.8 x 22.5 x 34.5 cm
