The enjoyment is beyond all expression
The personal life is experienced secretly
The appeal of bathing keeps changing with
the four seasons
Let our feeling control

The most lovely demands
Free from inhibition
Enjoying the pleasure in water
Let this familiar feeling be
The reason for future recalling
Do not forget the tenderness of water

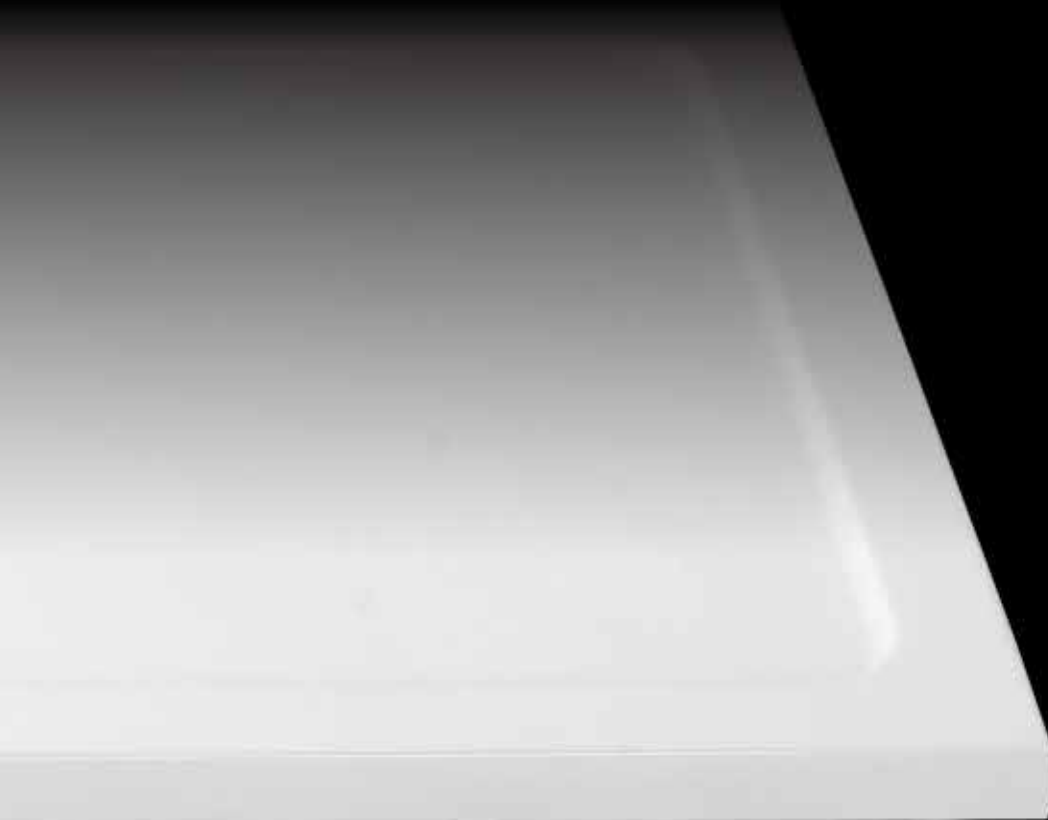

Shower tray

Series

The pure bathroom has throw away the white color,attracted towards ocean blue which symbolizes the meaning of space. When bathrooms are dominated by white color,just a few colors will be so splendid and vivid,A compromise between function and cision feeling, resisting pressmistic color,which is the motication of designers to create focus for the eyes.

GEMY sanitary ware insists on creating rich and artistic bathing space,so as to inspire characteristic living thoughts in the world of sanitary civilization.
