

ELECTRIC JUICE EXTRACTOR

A traditional 'made in Germany' product

ROMMELSBACHER

Making delicious, long-life juices at home is very easy with this well-proven electric juice extractor manufactured in Germany. The integrated heating element makes this model being a complete stand-alone appliance. The robust pot stands out by its superior, acid-resistant 2-layer enameling. You just have to fill in water and fruits and then connect the unit to the mains. After the extracting process the hot juice can be filled directly into bottles or other containers via the outlet tube. The integrated boil dry and overheating protection and the heat insulated handles grant perfect safety during use.

Technical details:

- type: EE 1505
- 230 V ~ 1500 W, white/blue
- stand-alone appliance with integrated heating element
- boil dry and overheating protection
- 28 cm pot diameter
- pot with superior, acid-resistant 2-layer enamel coating
- capacity of fruit basket: 10 litres
- capacity of juice collector: 4 litres
- complete with outlet tube and clamp
- dimensions: 38 x 32 x 43,5 cm
